

Hegel's Science of Logic and Phenomenology of Spirit – Dedicated to Leon Trotsky – A Prophetic Leader, Though Young and Tired of Politics for the Principle of Future Life with another Prophet who is the Absolute and will lead it to these Fundamental Recognitions we call Prophecy among us which is proven not only by Fact but also by the Intellectual Role of Cognizing the Developing Movement with the reading of St. Paul Included as Mass Line

By V.I. Lenin

- I. *Being, Essence and Concept – from the standpoint of a simple lover of Communism and simple affective Militant*

Like music, the history of Being, is language and expression, even the history of thought, all as figures of music,

Then the contradiction, explosive ruptural movement – Christ is among you people – All Hail!

Finally the Absolute – the Leader – Inspiration, Divine Inspiration, all this I am laughing in Quranic ways for.

- II. *Principle of Clinamen therefore Essence to Appearance – the Three Divisions currently and the Fourth*

The essence of working class is deviated in ultra-left wing poems to in fact the appearance, its re-doubled Quranic gaze which then is a torsion of working class split which then is Absolute which is naïve and loving to a woman and this is the clinamen of women joining the masses in free love.

Trotsky believes it is only clinamen the process of encountering – just clinamen after clinamen, which means sex after sex for the future Prophet which develops into people's passion for protest and poems and just insurrection which then is Inspired by a Absolute Leader with Surrealist Avant-Garde clinamens.

He is not Blanquist as is being called but ensures the order to clinamen from appearance to essence and back in dialectical spirals called abstraction in Jewish prophecy.

Mao is the order of dogmatic principles of clinamen – mass line is ordered as surrealist flash.

Part II

Leon Trotsky's Writings on Lenin's Breakthrough in April 1917, this is the true April Thesis I assure You – not that cheap state and revolution or even earlier What is to Be Done.

I argue –

Lenin is about the absolute and will seize power in insurrection by clinamen to the state and fail and order the dogmatism of Stalin which converts by the lasting clinamen of our works and intellection to CPSU which is True people in Paul's sense of Damascus.

I am about just what he calls young gun stuff, insurrectional. I agree, but I also mean Communism belongs to the future of Quran –

My prophecy is – the future is clinamen in ordered dogmatism like Mao but highly clinamen split into dogmatism and clinamen at once – in fact I can tell this Sirohi is about the surface of dogmatism and the concrete essence of clinamen like insurrections in Winter we all wait for in the working people I can tell.

Part III

Mao's response.

I want ordered presentation and axiomatic predictions like Ilyenkov on the process – I axiomatize the Sirohi line as developing intellection and mass line in mass surrealism for in fact even the poorest black people in America and Algeria – I call this pure inspiration.

My own process is about intellection, not dogmatic clinamen.

I mean in fact intellectual clinamen which inspires the masses to their clinamen to appearance.

Absolute remains, now to Aldo.

Part IV

Aldo Raine and Jamal Wallace

We want a clinamen which is entirely the absolute leader – just his poem.

It will make it heartfelt to all people and that is Christ's story.

I mean just his life, his principles and his teachings all collected as Prophet.

*Imagine the clinamen flowing from his mind and thought and reflections,
to each person – we call this gliding red army.*

Thanks.
